

# Testing of geteduroam Android clients

## Scope of testing

Testing will be performed by eduroam users who are willing to perform testing on the new getEduroam clients. This group is expected to comprise of IOS, android, windows and xNix users in different flavors. The group may in time contain users with OS types or variants that are not currently supported or expected to work.

This “light version” will not include user experience testing. However, users are welcome to leave comments on user experience in the comment fields supplied.

## Testing methodology

Testing will be performed by individual users without the need of supervision. Users will complete the form starting on the next page. Each page of the form shows the user dialogue during installation. The user is then asked to describe potential errors and difficulties as exemplified below:

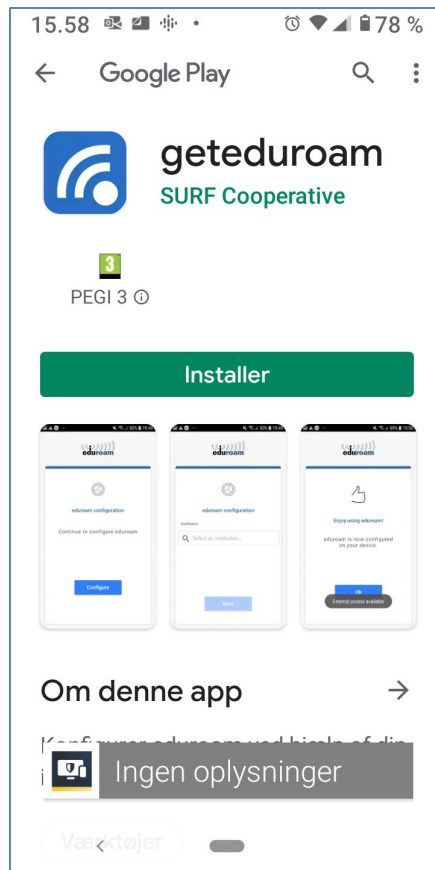

EXAMPLE: Did you experience errors when using the screen shown above?		
Yes	No	Comment
<input checked="" type="checkbox"/>	<input type="checkbox"/>	

We will not gather any personal information without your consent and your test results can be submitted anonymously.

## Testing the geteduroam app

### 1.1 Testing the Main window

By using your Andorid based device (Phone or tablet), open the app store and find the geteduroam app as shown below:

1. Did you experience difficulties navigating to the screen shown above?

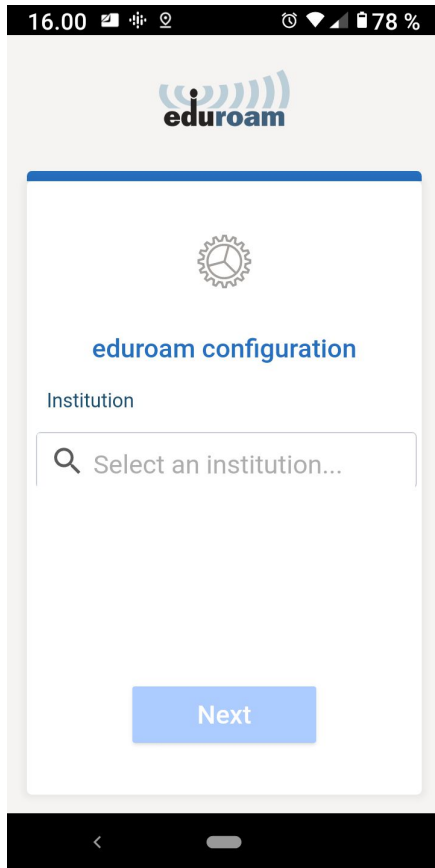

Yes	No	Comment
<input type="checkbox"/>	<input type="checkbox"/>	Click or tap here to enter text.

2. Did you experience errors when using the screen shown above?

Yes	No	Comment
<input type="checkbox"/>	<input type="checkbox"/>	Click or tap here to enter text.

### Testing the Install window
